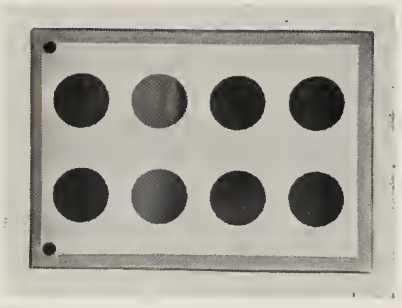
THE NATIONAL COIN ALBUMS



The very popular National Coin Album is designed in a ring binder to enable you to store and display your collection with perfect ease and give years of service at a moderate cost.

The pages are of a durable chipboard construction of a tan color with clear acetate slides covering each row of openings for protection and permit both sides of the coins to be seen. There are two sizes available for the convenience of the collector. Small size pages are 5½"x8", large pages 7½"x14", both available either printed or plain. The printed pages have a proper heading with date or title printed below each opening. The plain pages are for those who wish to arrange and letter their own albums or house foreign coins.

Brown Texhide binders stamped in gold are available for either size page and each will hold five pages. Album labels printed in gold are also available.

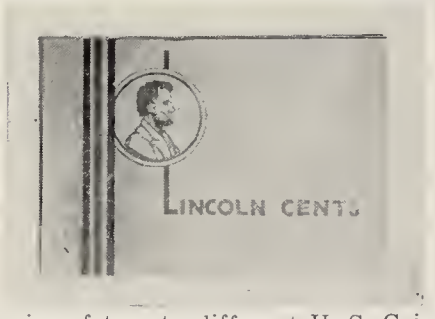
THE U. S. COIN ALBUMS



The series of twenty different U. S. Coin and two World Silver Dollar Albums listed below have been especially adapted for use in housing coins most widely collected by numismatists the country over.

In style and design they have been manufactured along the same lines as the more expensive American Coin Album pages except that each row of openings has a single celluloid slide which can be removed by friction of the fingers toward the outer edge of the page. This will permit quick insertion of the coin into place after which the celluloid slide is returned to its original position. Of necessity only one side of each coin is displayed These albums are sturdily constructed of heavy dark green cover stock attractively designed with portrait and title and are also printed with year dates on each page. Size 5½"x8".

Sturdy construction, convenient handling and moderate price have made these U. S. Coin Albums popular with thousands of coin collectors everywhere.
